

nyloflex® Combi FII

Compact all in one system

For narrow web and mid web applications, suitable for processing high quality photopolymer plates up to a maximum size of 660 mm x 860 mm (26" x 33.9")

Highly efficient and consistent quality

- + New generation compact all-in-one equipment
- + Space saving and compact design including exposure, washer, dryer and light finisher
- + Exposure with 19 high power lamps,
- + Short washout times due to oscillating rotary brushes, dual tank system with pre-wash section to separate LAMS
- + Four insulated drying drawers with individual timers ensure temperature uniformity and reduce drying times
- + Consistent quality due to process automation
- 24 memory channels for processing parameters and PLC control
- Exposure section with airflow and cooled bed for optimal temperature control
- Integrated heating / chilling device for temperature control of washout solvent
- Solid content measurement with dosing pump for automatic solvent replenishment
- Optical detection of defective lamps

User-friendly operation

- + Operator friendly colour touch screen with graphic display of all functions
- + Easy plate input due to self-adhesive plate fixing - no punching, no loss of material
- + Efficient exhaust system reduces emissions
- + The operating hours of all main components can be displayed
- + Digital timer and count down facility
- + Easy access for lamp replacement
